800–1100 FEET

APPELLATION
DRY CREEK VALLEY

BARREL AGING
19 MONTHS IN EUROPEAN OAK; 30% NEW OAK

DRY CREEK VALLEY CABERNET SAUVIGNON IS AN UNDISCOVERED GEM

A perfect microclimate with long days of vibrant sunshine and cool, foggy evenings allows for exquisitely ripened Cabernet Sauvignon grapes.

Iron-rich soils of the western hills are thin and rocky, creating a stressed environment in which to grow grapes with bold, intense flavors.

With bright cherry fruit framed by floral and spice elements, this wine speaks to the distinctive soil and growing conditions of the Dry Creek Valley.
